## **Deadline to Complete Census 2020 is Sept. 30th**

When Alaskans go uncouncted, communities lose out on important federal funding. Responding to the census helps communities get critical funding for local public services. The census determines the resources that go to Alaska to help build roads and infrastructure, support hospitals, and deliver public services to children, veterans, seniors and families.

In 2010, Alaska had the lowest participation rate in the nation at 64 percent. A similar undercount of our state this year means Alaska will not receive its full share of federal funding for the following 10 years.

The Census Bureau is working to complete data collection as quickly and safely as possible, while ensuring a complete and accurate count as it strives to comply with the law and statutory deadlines. All offices are schedule to complete their work by September 30, 2020.
