Aleutians East Borough
Planning Commission Meeting

Meeting: Monday, May 18, 2015 – 1:00 p.m.
Roll Call & Establishment of a Quorum
Adoption of Agenda
Agenda
PLANNING COMMISSION MEETING
(packet available on website www.aleutianseast.org)

Date: Monday, May 18, 2015
Time: Meeting: 1:00 p.m.
Location: By Teleconference in the locations below:
   King Cove AEB office                      Akutan city office
   Sand Point – AEB office                   Cold Bay city office - library
   Nelson Lagoon Corp. office                Anchorage – 3380 C Street
   False Pass city office

All communities will be provided with conference calling information for the designated location in your community. Public comments on agenda items will take place immediately after the adoption of the agenda. Additional public comments can be made at the end of the meeting.

PLANNING COMMISSION MEETING AGENDA

1. Roll Call & Establishment of Quorum.

2. Adoption of Agenda

4. Community Roll Call and Public Comment on Agenda Items

5. Minutes
   • January 21, 2015 Planning Commission Meeting Minutes

6. Resolutions
   • Resolution 15-02, Recommending Approval of Aleutians East Borough Permit No. OSP 2015-01 for the Peter Pan Onshore Seafood Processing Plant, Port Moller Facility

7. Old Business

Community Roll Call and Public Comment
on Agenda Items
Minutes
Aleutians East Borough
Planning Commission Meeting
January 21, 2015

CALL TO ORDER
The January 21, 2015 Planning Commission meeting was called to order by Chairman Emrich at 3:00 p.m. by teleconference in each community.

ROLL CALL

Chair, Chris Emrich Present
Chris Babcock Present
Robert Gould Present
James Brown Absent
Amy Foster Absent
Josephine Borenin-Shangin Present
Justine Gundersen Present

A quorum was present.

Staff Present:
Rick Gifford, Administrator
Anne Bailey, Administrator Assistant
Tina Anderson, Clerk
Susan Harvey, Land Use Permit Project Consultant
Roxann Newman, Finance Director

Adoption of Agenda:
Babcock moved to approve the agenda and second by Gundersen. Hearing no more MOTION PASSED.

Community Roll Call and Public Comments
The communities of Sand Point, King Cove, Akutan, False Pass, Nelson Lagoon and the Anchorage office were participating. There were no public comments.

Minutes, March 5, 2014:

MOTION
Babcock moved to approve the March 5, 2014 Minutes and second by Gundersen. Hearing no more the minutes are approved as presented.

Resolution 15-01, the Planning Commission approving the Aleutians East Borough Title 40, Land Use Permit Code Enforcement Manual:
MOATION
Gundersen moved to approve and second by Gould.
Consultant Susan Harvey said the revisions recommended at the last meeting were made and are outlined in the packet.

DISCUSSION
Chairman Emrich said the enforcement manual is quite comprehensive, easy to follow and is well organized. Gunderson agreed.

ROLL CALL
Babcock-yes, Gunderson-yes, Shangin-yes, Emrich-yes, Gould-yes. MOTION PASSED.

Old Business none

New Business none

REPORTS AND UPDATES

Anne Bailey said in the packet there is a report on the land use permitting system data base that has been launched, which can now be reviewed. We have received eight Commercial Recreation Permit applications and two have been approved. Other than a few growing pains the program is working very well. We have also hired Susan Harvey again to assist us throughout the process.

PLANNING COMMISSION COMMENTS

Gould asked when the Planning Commission terms expire. The Clerk explained that seats are all three year terms, however, should stagger the terms so all seats do not expire at the same time. He also enjoyed the workshop, he felt it was very educational and that he learned a lot. He added that the permit process is put together very well. Emrich agreed saying it is broken down very well and information is easy to retrieve.

Emrich said during the next meeting we will be at the stage to review a permit and see how the process works in motion. It will allow us to work out any kinks and find ways to improve the program if needed.

PUBLIC COMMENTS
None

NEXT MEETING DATE AND TIME
Tentative date April 14 at 1:00 p.m.

ADJOURNMENT
MOTION
Aleutians East Borough Planning Commission
January 21, 2015

Gundersen moved to adjourn and second by Shangin. Hearing no more the meeting adjourned at 1:27 p.m.

Chairman

Clerk

Date
Date: May 1, 2015

To: Planning Commission Members

From: Rick Gifford, Borough Administrator

Re: AEB Permit Application No. OSP 2015-01,
   Peter Pan Onshore Seafood Processing Plant, Port Moller Facility
   Land Use Permit Staff Recommendation
   Resolution 15-02

The Aleutians East Borough (AEB) received a January 27, 2015 land use permit application from Peter Pan Seafoods, Inc. (Peter Pan). This permit application requests approval for continued onshore seafood processing at Peter Pan’s Port Moller Facility, located on the Alaska Peninsula approximately 90 miles northeast of Cold Bay. Peter Pan’s Port Moller Facility operates seasonally from May to September processing and freezing salmon. A year-round caretaker is on site.

Peter Pan’s application was submitted to comply with the AEB’s new land use permit requirements for Onshore Seafood Processing Plants. Prior to submitting the application, Peter Pan and the AEB Staff met on several occasions to discuss the most efficient and effective method to submit a permit application for the existing Port Moller Facility. During these meetings, the AEB Administrator agreed to waive the Local Economic Development Plan, Historical and Cultural Resources Protection Plan, Good Neighbor Plan, and Design Plans, because this facility is already built and has been in operation for 101 years.

Peter Pan’s January 27, 2015, application included a majority of the required elements; however, a Request for Additional Information (RFAI) was sent to Peter Pan on February 2, 2015 to obtain a few additional pieces of information needed to process the permit application, clarify application content, and better understand Peter Pan’s use of AEB’s lands. On March 4, 2015, Peter Pan responded to the RFAI. On March 17, 2015, the AEB deemed Peter Pan’s application complete.
The January 27, 2015 permit application and the March 4, 2015 RFAI response are attached to this Staff Recommendation in electronic form.

This permit application is being processed in accordance with the AEB Municipal Code (AEBMC) requirements of Chapter 40, and must be reviewed by both the Planning Commission and Assembly, and approved by the Assembly.

This permit was subject to a 30 day public review comment period. Public review started on March 25, 2015 and ended on April 23, 2015. We have not received any comments supporting or opposing the application.

The AEB Staff have reviewed the application and have prepared this Staff Recommendation for your review and consideration.

Facility Information

Peter Pan owns and operates the Port Moller onshore seafood processing plant. The facility is named “Peter Pan Seafoods – Port Moller, AK” and is owned by two parent companies: Peter Pan Seafoods, Inc. and Maruha Nichiro Corporation.

Port Moller is located on the north side of the Alaska Peninsula, 90 miles northeast of Cold Bay. The Peter Pan facility is located on approximately 32 acres of sand spit and tidelands that divides the waters of Port Moller Bight and the Bearing Sea. There are no communities in the immediate vicinity of the facility. The closest community is Nelson Lagoon, about 25 miles west of Port Moller.

The facility consists of an office and large processing/warehouse complex on the dock, a dock area, two large shore side warehouses, staff support facilities, diesel-powered electrical generation plants, a fuel storage and distribution system and a water system. The facility operates seasonally (June – September), and a caretaker oversees the facility the remainder of the year. The only product currently produced at the facility is frozen salmon and salmon roe.

Property Ownership and Access

A majority of Peter Pan’s onshore seafood processing plant and equipment is located on property owned by Peter Pan Seafood Inc. However, during the application review process Peter Pan confirmed some structures and containers are located on AEB lands, and that Peter Pan is conducting landfill operations and is using roads, an airstrip and a water source on AEB lands. Peter Pan’s March 4, 2014 clarified the property use:

"The majority of the Peter Pan Seafoods, Inc., Port Moller facility is located on property owned by Peter Pan Seafoods, Inc. As previously indicated, the landfill site, airstrip, road and water source location are currently on land conveyed to the AEB by the state and federal governments. Additionally our recent review of the 2008 survey by McClintock Land Associates for the Aleutians East Borough indicates structures along the west boundary of U.S. Survey No. 1147 (Peter Pan property) that extend beyond the property line and are believed to be located on AEB land. These
buildings include: 2 employee housing units, approximately 6 fishermen’s storage containers, the GCI tele-communications container along with the associated communications satellite dishes, and various sidewalks and pathways leading to these structures. It is our belief that Peter Pan has had structures in this area since at least the 1950’s. Peter Pan would like to request continued use and access of this AEB land or would like to request the Borough’s consideration of conveying this land to Peter Pan.”

The airstrip and lands adjacent to the Peter Pan facility have recently been conveyed by the state and federal government to the AEB. Peter Pan has been using the airstrip, roads, and has been conducting landfill operations, and using a water source on AEB lands adjacent to the Peter Pan facility. And, as explained above, the application process revealed a portion of Peter Pan’s facilities (two employee housing units, approximately six fishermen’s storage containers, the GCI tele-communications container along with the associated communications satellite dishes, and various sidewalks and pathways leading to these structures) are located on AEB property. There is no lease in place between Peter Pan and AEB for use of these AEB lands.

Prior to conveyance of these lands to the AEB, Peter Pan operated under a Department of Air Force license for airstrip use. Peter Pan holds an Alaska Department of Environmental Conservation (ADEC) permit for the landfill.

Peter Pan’s application states the AEB Port Moller airstrip and roads are also used by the Alaska Department of Fish & Game, hunting and fishing guides, and local air taxi services.

The AEB Staff recommend AEB’s permit authorize Peter Pan’s continued use of the airstrip, roads, landfill, water source, and buildings/storage containers located on AEB lands, provided Peter Pan resolves the land ownership issue with AEB for use of AEB lands and remains in compliance with the ADEC landfill permit, and AEB’s required reclamation plans.

The AEB Staff recommend Peter Pan’s use of the airstrip and roadway be limited to transportation use only. No fuels, chemicals or other materials may be stored at the airstrip or along the roadways, without prior permission from AEB and that no temporary or permanent structures be added. The AEB authorizes Peter Pan’s forklift and shelter that are currently located at the airstrip.

The AEB Staff recommend Peter Pan’s use of the landfill is limited to the terms and conditions of its ADEC landfill permit.

Reclamation Requirements

The AEB Staff recommend Peter Pan’s application is approved subject to the following specific Reclamation Plan requirements. These Reclamation Plan requirements were proposed to Peter Pan by AEB Staff during the RFAI process, and Peter Pan’s March 4, 2015 RFAI Response agreed to the terms and conditions listed below. The only addition since Peter Pan’s March 4, 2015 agreement was to add a requirement for Peter Pan to also remove the buildings and storage equipment from AEB lands after plant closure, since that was new information contained in Peter Pan’s March 4, 2015 response. More specifically, the AEB Staff recommend the following reclamation requirements be added to permit approval.
For Peter Pan’s property, Peter Pan must:

a. Develop a reclamation closure plan for its property that includes removal of all hazardous waste, fuel, chemicals, spilled material and contaminated soils, and debris prior to closure, including a plan to retain the facilities and equipment for beneficial reuse, later use, or a plan to remove the facilities;

b. Submit the plan to AEB at least 6 months prior to plant closure for review and approval;

c. Fund and complete the reclamation; and,

d. Ensure the reclamation is completed within 365 days of the plant closure.

For operations conducted by Peter Pan on AEB property (e.g., use of roads, airstrip, landfill area, water source, buildings and storage), Peter Pan must:

a. Hire a solid waste engineer to develop a landfill closure plan that meets State of Alaska Landfill Closure Design Requirements and Best Management Practices at the time of the planned closure;

b. Develop a reclamation plan that includes removal of all hazardous waste, fuel, chemicals, spilled material and contaminated soils, debris, buildings and storage equipment from AEB property;

c. Submit the plan to AEB at least 6 months prior to plant closure for review and approval;

d. Fund and complete the reclamation; and,

e. Ensure the reclamation is completed within 365 days of the plant closure.

These Reclamation Plan requirements will allow Peter Pan flexibility to develop Reclamation Plans that are fit-for-purpose closer to the time of closure, and will provide the AEB with the legal and fiscal assurance that a Reclamation Plan will be developed, funded, and implemented within an acceptable timeframe. This is particularly important for AEB lands used by Peter Pan (airstrip, roads, landfill, and Peter Pan’s buildings/structures on AEB land), where the AEB would be burdened with the duty and cost of reclamation if not completed by Peter Pan.

**State and Federal Permits**

Peter Pan operates under a host of state and federal permit requirements. Some of these permits will expire during the five year AEB permit term. Therefore, the AEB Staff recommend Peter Pan’s application be approved subject continued compliance with state and federal permit requirements, and a requirement for Peter Pan to provide AEB with a copy of all approved permit applications, certificates, and approval letters specifying the terms, conditions, or stipulations within 30 days of issue. This requirement will provide the AEB with sufficient information to ensure Peter Pan remains in compliance with its state and federal permits during the five-year AEB permit term.

Peter Pan’s facility currently operates under an Alaska Department of Environmental Conservation (ADEC) Seafood Processing Facility Permit to Operate (ADEC Permit AK-56-M). This ADEC permit requires compliance with ADEC’s Seafood Processing and Inspection Regulations of Title 18, Alaska Administrative Code, Chapter 34 (18 AAC 34). The primary
The purpose of this permit is to ensure seafood is processed in a manner safe for human consumption. As part of this approval, ADEC requires Peter Pan to have a sanitation plan, meet certain facility requirements, and dispose of waste in accordance with ADEC regulations for solid waste (18 AAC 60) and wastewater (18 AAC 72).

Peter Pan’s facility currently operates under the Seafood Processor’s General Permit No. AK-G52-0014, which requires compliance with the Environmental Protection Agency (EPA) National Pollutant Discharge Elimination System (NPDES) Permit for Seafood Processors in Alaska (NPDES Permit No. AK-G52-0000). These permits address management, storage, and discharge of fish waste and wastewater into Port Moller. Peter Pan is authorized to discharge up to 10,000,000 pounds of seafood processing waste residues per calendar year using an effluent treatment method of grinding solid seafood processing wastes to ½ inches before discharge. The discharge point is approximately 250 feet off of the southwest corner of our dock at the 10’ mean lower low water (MLLW) mark on the edge of the channel. Fish waste includes waste from the fillet and roe processing areas, including fish frames, fins, fillet trim, discarded roe and processing and flume water. Peter Pan’s permit limits discharge of fish waste and associated waste water into the port to a one acre zone of deposit offshore. A dive survey is required to make sure that marine life is feeding on the waste and that not more than one acre is impacted. The permit also restricts residues and waste from collecting on the shoreline, and Peter Pan must adhere to a Best Management Practice plan to control and reduce pollutant discharges. Peter Pan provided a June 2014 copy of its Best Management Practices Plan. Peter Pan also provided a copy of its November 2012 dive survey showing compliance with the one acre zone of deposit and no measurable accumulation of seafood waste was found. ADEC is working on a new NPDES Permit for Seafood Processors in Alaska in 2015, and when complete, Peter Pan’s facility will be required to comply with the new state permit.

Peter Pan’s facility currently operates under an EPA Spill Prevention Control and Countermeasure Plan (SPCC) for the onshore portion and a USCG Facility Response Plan (FRP) for the offshore portion. Peter Pan has 10 bulk storage tanks with capacity of 346,000 gallons (309,000 gallons diesel and 36,700 gallons gasoline). The diesel fuel tanks are located in a lined, diked impoundment. The gasoline tanks are stored in a diked impoundment with a concrete floor. Bulk fuel is received from barges, transferred to the tank farm and is dispensed to fishing vessels and tenders. Peter Pan has containment boom, sorbents, recovery pumps and hoses, and hand and power tools on site to aid in containment and recovery of spilled products. Peter Pan does not rely on response contractors to meet federal response standards, it relies on its own equipment stored at the facility, and may call on assistance from other Peter Pan Seafood Facilities in King Cover, False Pass and Dillingham. The marine habitat of Port Moller is classified as an environmentally sensitive area; therefore, spill prevention and rapid response is paramount. There are no automatic leak detection systems at the facility. Leak detection is completed by visual monitoring, inventory discrepancy or integrity testing. The AEB Staff encourage Peter Pan to consider installation of automated leak detection systems where technically feasible, and during repairs, upgrades and equipment replacements.

Peter Pan’s facility currently operates under an ADEC solid waste permit (SWGPCAMP-18). Prior to year 2000, the Port Moller landfill was permitted by ADEC as a Class III Municipal Landfill (Permit #8821-BA002). In 2000, ADEC recommended the landfill be permitted under a General Permit for the Operation of a Landfill for Remote Camps and Lodges with fewer than 50 residents. While peak residency at Peter Pan’s facility in the summer is 150 people, the annual
average residency is less than 50. Waste is limited to incinerated domestic solid waste (50 cubic yards of ash per year), inert waste (50 cubic yards of ash per year), and septage\(^1\) (5,000 gallons per year). Hazardous waste, batteries, vehicle fluids, oily waste, refrigerants, and putrescible waste that has not been treated by incineration, and any other waste not specifically allowed is prohibited in the land fill.

Peter Pan’s Risk Management Plan and Emergency Plans address potential hazards at the facility. Peter Pan has a trained fire brigade of 15 employees to operate the fire main, approximately 50 portable fire extinguishers and several wheeled units. A release of anhydrous ammonia from the refrigerant system is a possible risk; Peter Pan has an annual inspection program for this system and a contingency plan in place for responding to this type of event. Peter Pan estimates a worst-case anhydrous ammonia release scenario to be an 8,000 lb release creating a toxic vapor cloud for up to 1.6 miles. There are no local communities (public receptors) within that radius. There is an alarm system and an evacuation plan for employees.

Peter Pan’s facility currently operates under an ADEC air quality control permit (Pre-Approved Emission Limit No. AQQ0019PL201) that allows burning of up to 315,000 gallons of diesel per year in its power generators. ADEC’s air pollutant modeling work determined facilities burning up to this maximum amount of fuel do not pose a risk of exceeding ambient air quality standards for nitrogen oxides. The actual amount of fuel burned was substantially less than the maximum allowed according to fuel usage reports from 2009-2013 that ranged from 165,400 gallons to 215,650 gallons. Peter Pan’s facility has eight power generation units:

The Aleutians East Borough Municipal Code (AEBMC) requires the AEB Staff to evaluate whether an applicant is using the best available air pollution control technology, alternative energy use, or ultra-low sulfur diesel fuel to reduce air pollution generated within the Borough. The ADEC permit does not require use of best available air pollution control technology or alternative energy use; it only limits the maximum amount of fuel that can be burned in a calendar year. During the application process, the AEB Staff inquired about any steps Peter Pan was taking, or could take to reduce air pollution. Peter Pan explained that it has a rigorous maintenance and repair program to ensure reliable power and to ensure the generators generate power as efficiently as cleanly as possible. Most of the main power house generators were installed in the 1970s, although one was upgraded in 1990 and another in 2008. Two new winter power house generators were installed in 2007. Peter Pan has been using ultra-low sulfur diesel since 2010 to reduce the amount of air pollution.

\(^1\) Septage includes liquid and solid human waste removed from a septic tank, cesspool or portable toilet.
Due to the age of the power generators used, use of ultra-low sulfur diesel to reduce emissions, and implementation of a maintenance and repair program to optimize combustion efficiency and reduce overall fuel use and emissions, the AEB Staff recommend AEB’s standard stipulation for air quality control be deemed satisfied as long as Peter Pan:

a. Remains in compliance with its ADEC air quality control permit for its existing facilities;
   and,

b. Evaluates use of best available air pollution control technology, and alternative energy use, prior to replacing or adding any significant new air pollution sources.

AEB Staff recommends that the Peter Pan Permit of onshore seafood processing permit be approved with the following additional stipulations:

1. Property ownership issues are resolved within one (1) year from permit authorization. An extension may be issued if extenuating circumstances occur.

2. Peter Pan continues to be compliant with state and federal requirements and provides AEB with a copy of all approved permit applications, certificates and approval letters specifying the terms, conditions or stipulations within 30 days of issue.

A draft Planning Commission Resolution is attached for your review and consideration. We have also provided a draft approval letter for Assembly review and consideration.

The AEB Planning Commission has 60 days to review and make a recommendation to the Assembly (by resolution) on this permit application from the date of this letter. The Planning Commission meeting will be open to the public, and this permit will be placed on the agenda for discussion with a period for oral comment.

For a complete copy of the permit go to the Aleutians East Borough website at www.aleutianseast.org and select the public notices tab.

Tina Anderson has been assigned to your permit, and can be reached by e-mail at tanderson@aeboro.org, or by phone at (907) 383-2699 if you have any questions about this recommendation.
The Aleutians East Borough (AEB) permit application form and approved permit contains a list of standard permit stipulations. Additionally, the AEB has determined that the additional stipulations listed below are required to approve your permit.

1. **Reclamation Requirements:**

   For Peter Pan’s property, Peter Pan must:
   a. Develop a reclamation closure plan for its property that includes removal of all hazardous waste, fuel, chemicals, spilled material and contaminated soils, and debris prior to closure, including a plan to retain the facilities and equipment for beneficial reuse, later use, or a plan to remove the facilities;
   b. Submit the plan to AEB at least 6 months prior to plant closure for review and approval;
   c. Fund and complete the reclamation; and,
   d. Ensure the reclamation is completed within 365 days of the plant closure.

   For operations conducted by Peter Pan on AEB property (e.g., use of roads, airstrip, landfill area, water source, buildings and storage), Peter Pan must:
   a. Hire a solid waste engineer to develop a landfill closure plan that meets State of Alaska Landfill Closure Design Requirements and Best Management Practices at the time of the planned closure;
   b. Develop a reclamation plan that includes removal of all hazardous waste, fuel, chemicals, spilled material and contaminated soils, debris, buildings and storage equipment from AEB property;
   c. Submit the plan to AEB at least 6 months prior to plant closure for review and approval;
   d. Fund and complete the reclamation; and,
   e. Ensure the reclamation is completed within 365 days of the plant closure.

2. **Additional Air Pollution Control Requirements:** Due to the age of the power generators used, use of ultra-low sulfur diesel to reduce emissions, and implementation of a maintenance and repair program to optimize combustion efficiency and reduce overall fuel use and emissions, the AEB’s standard stipulation for air quality control is satisfied as long as Peter Pan:
   a. Remains in compliance with its ADEC air quality control permit for its existing facilities; and,
   b. Evaluates use of best available air pollution control technology, and alternative energy use, prior to replacing or adding any significant new air pollution sources.

3. **Property Ownership Resolution:** Property ownership issues must resolved within one (1) year from permit authorization. An extension may be issued if extenuating circumstances occur.

4. **Continued State and Federal Compliance:** Peter Pan must continues to be compliant with state and federal requirements and provide AEB with a copy of all approved permit applications, certificates and approval letters specifying the terms, conditions or stipulations within 30 days of issue.

- Reason for revocation: __________________________

Section No. 6: Agreement to Comply with Sales Tax Payment

The Aleutians East Borough collects a two percent sales tax of raw fish product within its boundaries. The tax applies to the sale of raw fish whether delivered directly or indirectly to the buyer in the Borough. The tax, levied by the Borough, is an obligation of the seller. The buyer shall collect the tax at the time of sale by withholding from payment to the seller the amount of the tax. If payment is not made at the time of sale or delivery, the buyer shall segregate from funds of the buyer an amount equal to the tax due on the sale. I agree to comply with Aleutian East Borough’s Municipal Code Chapter 60.20, Sales Tax payment requirements.

Re: AEB Permit Application No. OSP 2015-01
Peter Pan Onshore Seafood Processing Plant, Port Moller Facility
Land Use Permit Application Approved

Dear Mr. Briski,

The Aleutians East Borough (AEB) received your January 27, 2015 land use permit application. Your permit application was assigned AEB Permit No. OSP 2015-01. Please refer to this AEB permit number in all correspondence with us.

Your permit application was approved on [enter date] in accordance with the AEB Municipal Code (AEBMC) Chapter 40. Your permit is effective on [enter date] and expires on [enter date]. To continue operating beyond the expiration date, you must submit a renewal AEB Land Use Permit Application on or before [enter date].

This Land Use Permit approval is only valid for the scope of operations and activities described in your application. Failure of the Applicant to provide true and correct statements and information in connection with this permit, without regard to intent, shall render the permit immediately void. Any changes to your operations or activities may require a permit amendment. You must consult with the AEB staff assigned to your permit to determine if an amendment is required before proceeding with any operations or activities not authorized under this approval. You must remain in compliance with the terms and conditions herein. Failure to comply with the conditions of this authorization could result in immediate revocation of this authorization.
This permit approval was conducted in accordance with the AEBMC, Chapter 40 and is final. A written decision of the Assembly may be appealed by the Applicant or any person who submitted timely written comments or gave oral testimony pursuant to the requirements of AEBMC Chapter 40. In accordance with the procedures established in AEBMC Chapter 40.04, the decision must be appealed to the Superior Court within 30 calendar days from receipt of the Assembly’s decision by certified mail.

AEB Staff, Tina Anderson has been assigned to your permit, and can be reached by e-mail at tanderson@aeboro.org, or by phone at (907) 383-2699 if you have any questions about this determination.

Sincerely,

Mayor Stanley Mack
AEB Assembly Chairman

AEB Permit No. OSP: 2015-01 File
RESOLUTION NO. 15-02

A RESOLUTION OF THE ALEUTIANS EAST BOROUGH PLANNING COMMISSION RECOMMENDING APPROVAL OF ALEUTIANS EAST BOROUGH PERMIT NO. OSP 2015-01 FOR THE PETER PAN ONSHORE SEAFOOD PROCESSING PLANT, PORT MOLLER FACILITY.

WHEREAS, a Land Use Permit application was submitted by Peter Pan on January 27, 2015 for its Onshore Seafood Processing Plant, Port Moller Facility and was assigned AEB Permit No. OSP 2015-01.

WHEREAS, Aleutians East Borough staff completed the required permit review and public notice requirements and developed a written staff recommendation (dated April 30, 2015) recommending approval of the Permit No. OSP 2015-01, subject to the additional stipulations attached to the staff recommendation.

WHEREAS, Aleutians East Borough Planning Commission held a public meeting on May 18, 2015 to review the permit application and staff recommendation.

WHEREAS, Aleutians East Borough Planning Commission agreed with the staff recommendation.

NOW THEREFORE BE IT RESOLVED that the Aleutians East Borough Planning Commission recommends the Aleutians East Borough Assembly review and approve Permit No. OSP 2015-01, subject to the additional stipulations recommended (and attached) to the Aleutians East Borough Staff Recommendation.

PASSED AND APPROVED by the Aleutians East Borough Planning Commission on this 18th day of May 2015.

Chris Emrich, AEB Planning Commission Chairman
